Please feel free to contact us at 407-719-0912

With global shortages of aviation professionals anticipated, it is important that programs as Vision of Flight exists, to offer awareness, excite new interest and develop passions towards the many exciting career fields that are awaiting today's students, in Aviation and Aerospace. In essence we are doing our part in helping to replenish the nation's workforce of aviation professionals.

We invite you join our team, become an ambassador to our mission and outreach. Vision of Flight is actively seeking donations towards our "Vision One Project". This venture will see Vision of Flight acquiring its very own instructional aircraft to utilize for student training and development.

What's unique about this program is that students will compete through academics, community involvement, and personal accomplishments, to earn valuable flight hours, allowing them to reach beyond the realms of general standards and education!

Donations can be made at
